Zirex Agency Launch

Medical Sector Digital Operations Strategy

A comprehensive 90-day roadmap for launching a specialized digital marketing agency focused on the medical and health sectors in Egypt and the Gulf, bridging the gap between medical expertise and patient engagement.

1. EXECUTIVE SUMMARY & TEAM

Executive Summary

Zirex is a digital marketing agency focusing on the medical sector. Initial priorities include Women's Clinics, Veterinary Clinics, and Pharmacies.

The 90-Day Goal: Establish a regular digital presence, test service offerings and sales methods, document real business models, and attract at least 3 qualified client inquiries.

The Challenge: Operations start with near-zero budget and limited team time. Success relies on organic content, existing relationships, reusing past work, and establishing a strict operating system before scaling.

Team & Responsibilities

The team consists of 5 members, collaborating based on specialized skills. Capacity is strictly 5–10 hours weekly per member.

- **Asmaa Essam El-Din Samih:** Strategy, Video Montage, Paid Ads Management.
- **Heba Ashour:** Content Writing, Paid Ads Management.
- **Sarah El-Sayed Mohamed:** Graphic Design, Page Management.
- **Mohamed Nasser Saad:** Graphic Design, Page Management.
- **Salwa Fathallah Abdel Qader:** Graphic Design, Content Writing.

Sellable Services & Operational Notes

Service	Proposed Scope	Operational Notes
Market & Competitor Analysis	Review competitors, audience, opportunities, messages	Foundational service / part of strategy
Medical Marketing Strategy	Goals, positioning, messages, channels, KPIs	Must precede execution
Social Media Management	Content calendar, publishing, tracking, reports	Clearly define # of platforms & posts
Medical Copywriting	Posts, Reels scripts, FAQs, awareness messages	Requires medical review by client
Medical Designs	Static designs, Carousels, brand templates	Focus on clarity and identity
Video & Montage	Editing Reels, short clips, Motion Graphics	Field shooting depends on location/cost
Paid Ads Management	Campaign setup, A/B testing, optimization, reports	Ad budget is separate from mgmt fees
Websites & SEO	Execution via external specialists when needed	Clarified as a third-party/partner service

Marketing Promise Boundary: Zirex does not guarantee booking numbers or outcomes without verified historical data. Results depend on specialty, reputation, budget, content quality, and the clinic's operational ability to handle patients.

3. SWOT ANALYSIS

Strengths (S)

- Previous experience dealing with health businesses.
- Diverse skill set within the team.
- Initial understanding of the medical context.
- Visual identity is already prepared.
- Existing past work ready to be converted into a portfolio.

Weaknesses (W)

- High reliance on the team leader.
- Varying levels of contribution among members.
- Limited time availability (5-10 hrs/week).
- Almost non-existent budget.
- Reliance on external contractors for photography/web.

Opportunities (O)

- High market need for understandable medical content.
- Market interest in Digital Reputation management.
- Ability to leverage documented case studies.
- Potential for partnerships and client referrals.
- Scalability to serve multiple specialties over time.

Threats (T)

- Larger, more visible competing agencies.
- Difficulty proving ROI without internal client data.
- Sensitivity of medical content (requires strict review).
- Price wars in the market.
- Risk of delivery delays due to team time constraints.

Market Vera

Angle: Showcasing portfolio and multi-sector videos.
Strength: Diverse content formats, ties marketing to sales.
Zirex Opportunity: Own a clearer, strictly medical angle. Explain the "why" and "how" instead of just showing final results.

EK Media

Angle: Medical specialization, doctor testimonials, result breakdowns.
Strength: Social proof, explains campaign results contextually.
Zirex Opportunity: Adopt similar transparency, but use simpler language, practical examples, and realistic boundaries for ROI claims.

Marketing Hub

Angle: Packages, services, and on-site clinic photography.
Strength: Clear service offerings and easy-to-understand packages.
Zirex Opportunity: Blend clear service offerings with educational content and problem-solving case studies to increase engagement.

Medica Scope / Medistra

Angle: Personal branding, AI Search, Corporate presentation.
Strength: High social trust, modern topics (AI/Reputation).
Zirex Opportunity: Diversify case studies (unlike Medica Scope relying on few doctors), and maintain authentic content over AI-generated filler.

5. STRATEGY & TACTICS (SOSTAC)

Core Strategies

- **Flexible Specialization:** Focus on medical, prioritize 3 niches, but accept valid health sector opportunities.
- **Proof Before Claim:** Showcase the problem, the intervention, and verifiable proofs. Never inflate results.
- **Practical Education:** Content explains marketing mistakes, KPIs, and processes, not just aesthetic designs.
- **Consultative Selling:** Start by understanding the clinic's operational capacity and bottlenecks before pitching a scope.
- **Low-Cost Growth:** Rely on organic content, direct networking, and strategic freelance partnerships.

Tactics & Messaging Pillars

Messaging Pillars:

- Medical Understanding (content respects science).
- Transparency (Reach ≠ Bookings).
- Integration (Ads + Content + Booking Experience).

Tactics:

- Publish 3x weekly (Education, Cases, BTS).
- Reels targeting FAQs and common clinic mistakes.
- 1-on-1 non-spammy outreach to existing network.
- Discovery calls with qualification scripts.
- Unified visual identity (Deep Purple, Gold, White).

6. 90-DAY EXECUTION PLAN

1 Month 1: Foundation & Launch

Week 1: Define exact sellable services, internal roles, and audit social accounts/bios.
Week 2: Extract 3 past case studies, prepare design templates and brand voice.
Week 3: Publish introductory/educational content and the first case study. Create a brief service PDF.
Week 4: Personal networking with past clients and requesting targeted referrals.

2 Month 2: Testing & Optimization

Test 2-3 core messages (e.g., better presence vs. quality leads).
Publish content handling common objections (Price, Time, Photography needs).
Conduct discovery calls, tracking niche, problem, and budget.
Assess team workload to determine max simultaneous clients without quality drop.

3 Month 3: Lead Generation & Scaling

Compile top content into a streamlined PDF Portfolio.
Follow up with warm leads using clear, scoped proposals.
Evaluate which channels drove the best conversations.
Goal Review: Did we hit 3 serious inquiries? Decide on Q2 service focus and contractor roster.

7. OPERATIONS & KPIS

Operating System

- Strict 30-min weekly sync.
- Single task board (Task, Owner, Deadline, Reviewer).
- Clear "Done" definition (Reviewed & Approved).
- Enforce 5-10 hr/week limits.
- No project starts without a Brief and Scope of Work.
- Track actual time/costs for accurate future pricing.

Facebook Insta LinkedIn TikTok

Key KPIs

- **Content:** Calendar adherence, meaningful engagement (saves/shares).
- **Sales:** Qualified conversations, discovery calls, sent proposals, conversion rate.
- **Operations:** Deadline hit rate, actual vs planned hours, rework rate.
- **Campaigns:** Lead Quality, Cost per Lead, Confirmed Bookings (if measurable).

Risks & Mitigation

- **Leader Bottleneck:** Delegate track owners.
- **Uneven Effort:** Small, weekly measurable tasks.
- **Zero Budget:** Focus organic + partnerships.
- **Unverified Results:** Keep an evidence log.
- **Freelance Delays:** Maintain backup roster.
- **Scope Creep:** Clear contracts & boundaries.

8. DOCUMENTED CASE STUDIES

1. Gynecology Clinic (Dr. Eman)

Duration: 2 Months

Challenge: Establish digital presence from scratch; required video content without direct field shooting.

Execution: Strategy, page management, copywriting, design, and simple video montages. Organic reach only.

Results: Improved digital appearance, established visual identity, increased followers and engagement.

2. Kira Pets (Veterinary)

Duration: 1 Month

Challenge: Page existed but lacked visual identity and organized content structure.

Execution: Brand revamp (Orange/Purple theme), video editing from provided assets, educational vaccination content.

Results: Vastly improved page aesthetics, video deployment, and a qualitative increase in customer inquiries (pre-ads).

3. IT Maintenance Center

Duration: 1 Month

Challenge: Low reach and weak content; needed brand awareness targeting gamers, freelancers, and students.

Execution: Competitor analysis, visual identity upgrade, Facebook management, and AI-generated video production (Zero ad budget).

Results: High publishing consistency and noticeably increased organic interaction.
